### DETAILED ACTION

1. Applicants' Preliminary Amendment, paper#5, is acknowledged. Claims 1-45 have been canceled. New claims 48-51 have been added. Claim 46 has been amended.

Claims 46-51 are pending.

### Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 46 and 48-51, drawn to method of determining drug effectiveness, classified in class 435, subclass 4.
- II. Claim 47, drawn to drug, classified in class 514, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the drug of Invention II can be identified by a patentably distinct method, i.e., culturing *M. tuberculosis* in the absence or presence of the drug, without utilizing transforming the mycobacterium *a priori* with a vector containing a nucleotide sequence of an *iniB* promoter.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and because while the searches

may overlap, the searches are not coextensive, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney P. Swartz, Ph.D., whose telephone number is (703) 308-4244. The examiner can normally be reached on Monday through Thursday from 5:30 AM to 4:00 PM EST.
